The scientist is always asking, "What can I bring forward or push back to get what I want in the shot?" So everything has to do with control and direction and making choices.

But the artist is wondering. "How can I create as emotion?" with this shot, I wanted to create a story with some emotional appeal. And that's when you make a conscious choice about film. I wanted a film with the color saturated. but I wanted good-looking, natural skin tenes too. Alabama, Feb. 14
